US Federal Funding

The US federal government is assessing the compliance of federally funded grants to fulfil their obligations outlined in a series of Executive Orders issued by the Office of the President of the United States

What does this mean for us?

It is possible that PIs may have received a “stop work order” or words to that effect, either from the US federal funder directly or from the Prime if they are a Subrecipient

What will happen next?

- We will contact Departments and Schools hosting US federal awards
- We will contact PIs currently holding US federal awards with instructions to contact us if they have received a stop work order
- Where stop work orders have been issued or there is a risk of a stop work order, we will liaise with each PI and Department
- The University is closely monitoring the situation and will provide further updates

Questions, comments?
